FOR IMMEDIATE RELEASE – 1/30/2009

MCAS Iwakuni, Japan – MCCS is pleased to announce new hours of operations for the on-base barber shops. Effective February 1 both the Main and North-Side Barber Shops will be open noon to 1730 on Sundays. North-side patrons will now have access to haircuts on Sundays and the Main Barber Shop's hours have been extended an additional half an hour to accommodate the large demand of services requested on that day.

To offset the additional staffing hours both locations will be closed during an off-peak day of the week, with neither closed at the same time, ensuring 7-day a week hair maintenance accessibility. To this end, the Main Barber Shop will be closed on Wednesdays, while the North-Side Barber Shop will be closed on Thursdays.

MCCS and the Services Division look forward to continuing to meet the requirements of the community through patron feedback good business practices. For more information, visit www.mccsiwakuni.com.
